ONE TEAM

We develop tools and systems that relieve physical strain on people. We believe in a future where people do physically demanding jobs, but this has no impact on their physical condition or passion. We support the part of society that holds it in our lives every day. We want to empower people to make the most of their private lives. To live a life that doesn't stop after work, but only then begins. A life full of strength and joy.

Let's make life the best game for everyone.
No matter what position he plays.
You can only win as a team.
ALWAYS ♥

BionicBack

The perfect exoskeleton system to relieve the back strain of your employees. Lightweight and universally applicable.

- Dynamic support
- Static holding support
- Consistent freewheeling function
- Relief when bending
- Support neutral spinal posture
- Continuous adjustment
- Individual support per workplace
- Sizes XS-XL, unisex
- 1,180g weight
- No disruptive contour
- Can be worn under a jacket
- Easy to sit
- minimal contact surfaces = little heat generation when worn
- Hygiene change pads for easy replacement
- Self-tightening and adjustment
- Created in just a few seconds
- Can be used as a relief tool for temporary use or as permanent support

With a unique bionic back structure to automatically optimize posture.

Add-ons

Set: Hygiene-Pads

Ideal for use by several people or for changing after long-term use of the BionicBack. Pads can be changed in seconds.

1 set includes:

- 2x shoulder pads for left and right
- 1x hip pad with flexible running compensation
- 2x leg pads for left and right

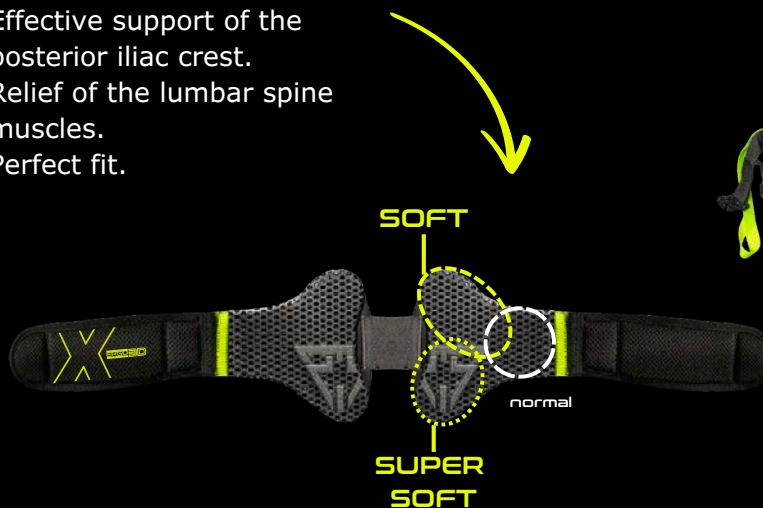

Now with new padding and optimized perspiration.
30% less heat generation.
Pads are compatible with all BionicBack.

X-ERGO 3D Pad

Developed for the lumbar region, the X-ERGO 3D Pad offers ultimate support that is specially adapted to the human anatomy.

- Ergonomic impulse
- Anatomy compatible
- Open 3D honeycomb structure
- 90 % less heat generation
- 3 pressure zones
 - Effective support of the posterior iliac crest.
 - Relief of the lumbar spine muscles.
 - Perfect fit.

Shoulder Comfort Pad

More comfort for your shoulders!

For all those who use the BionicBack all the time: The shoulder comfort pads are the ideal addition for even more comfort.

- Optimal pressure relief
- Ergonomic & comfortable
- Perfectly matched to the BionicBack

hTRIOUS Skin

Protect your BionicBack exoskeleton - with style and quality!

Not only can you give your BionicBack a personalised design, but you can also protect it from everyday wear and tear.

Our high quality skin is printed with the modern **hTRIOUS logo** and provides optimal protection for your BionicBack exoskeleton:

- Protection from dirt
- Protection from scratches
- Protection from wear and tear

Skin - customised

Ideal for companies, teams or individual brand presentations: Our high quality customised skins with a single colour logo!

- **Protection for your BionicBack** – against dirt, scratches and wear and tear.
- **Individual printable** – Your logo or design, with single-colour print as desired.
- **Starting at 15 pieces** – Perfect for teams and unique branding.

hTRIOUS

hTRIOUS Skin - Safety vest

The hTRIOUS Skin Safety vest offers a modern solution for greater visibility and safety.

Safety through reflectors

For better visibility in dark or poorly lit environments.

Note: This Safety vest does not have official high-visibility waistcoat certification, but is ideal for increasing visibility in dark or poorly lit environments.

hTRIOUS backpack

The perfect companion for your BionicBack!

Transport your BionicBack safely and comfortably with the hTRIOUS backpack. The practical bag offers enough space to transport your exoskeleton safely and easily, wherever you go.

Pocket adapter

Your equipment always to hand - with the universal hTRIUS pocket adapter

Use the hTRIUS pocket adapter to attach your belt bag quickly and securely to your BionicBack. This means you always have your equipment to hand and can transport your bags comfortably.

- Universally applicable – Fits various belt pouches and accessories.
- Easy attachment – Quickly and securely attached to the BionicBack.
- Practical and functional – Your equipment is always with you and immediately accessible.

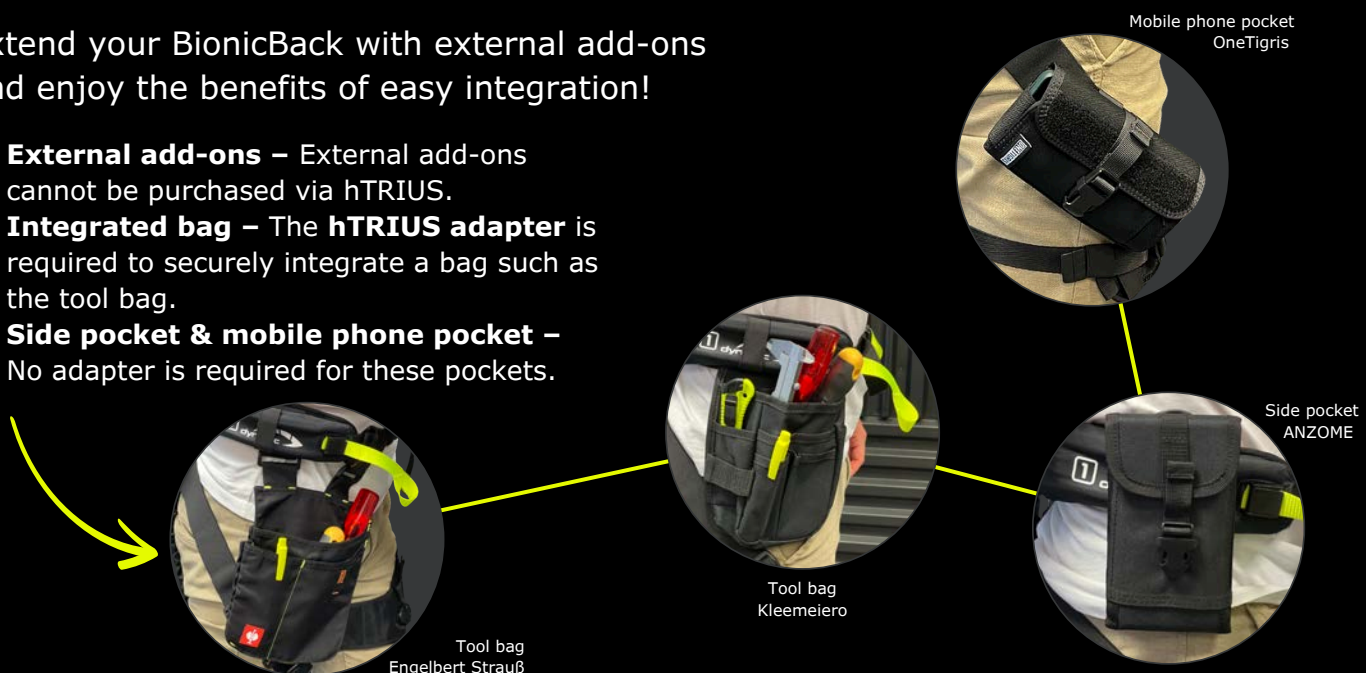

Note: Only the adapter - bag not included.

Integration of external add-ons

Extend your BionicBack with external add-ons and enjoy the benefits of easy integration!

- **External add-ons** – External add-ons cannot be purchased via hTRIUS.
- **Integrated bag** – The **hTRIUS adapter** is required to securely integrate a bag such as the tool bag.
- **Side pocket & mobile phone pocket** – No adapter is required for these pockets.

Service package

10,000 tons of relief per year!!!

To ensure that your systems always function perfectly, we offer an all-round service that is recommended once a year. The service is incredibly simple. You send us the systems and we maintain them. You will receive completely overhauled systems back within one week*.

- Checking the relief elements
- Replacement of worn textiles
- Replacement of worn parts (depending on the load)
- Upgrade parts (if newer versions exist)
- By adhering to the service interval, we give an additional guarantee of one year

More detailed details can be found in the service booklet. For larger maintenance orders (30 pieces or more), please contact your sales contact so that we can schedule the maintenance.

*depending on utilization.

Training + support

Through our sales. On site at your location or online. The precise planning is carried out by us in consultation with you.

1 year warranty

All systems have a 1 year warranty. In the event of a defect, send us the system and we will replace the components as quickly as possible.
